

# Clouds Of Glory

## Kavisha Mazzella

C F G Em Am Dm Dm G

He came one day, I don't know where from  
 His eyes were laughing, his heart a song  
 He took me from the city, we went outside  
 Out to the desert, I lay down like a child

He touched my head, I started to cry  
 There were no reasons, I couldn't say why  
 Felt like there were angels flying 'round my head  
 The glory of love shone down on my bed

We are angels  
 We've forgotten these things  
 Trailing clouds of glory  
 We've broken our wings

C F G C F G

We flew over strange mysterious places  
 Saw wonders of nature not made of hand  
 Inside a power, a river unseen  
 Flowed like the breath that turns a great wheel

Like beggars, lovers, dreamers and kings  
 Our forms they change into all of these things  
 Inside a power, a river unseen  
 Flowed like the breath that turns a great wheel

We are angels  
 We've forgotten these things  
 Trailing clouds of glory  
 Remembering

We are angels  
 We've forgotten these things  
 Trailing clouds of glory  
 Remembering

F G F G

When I returned from the garden of grace  
 No one knew me, or knew my face  
 I went out of my house, I stood under the sky  
 I know you share the same stars as I

I see a part, and you see the whole  
 Like a thief in the night, my heart you stole  
 Perhaps I will never see you again  
 My tears of love hang like beads in the rain

**Repeat chorus x3**

We are angels  
 We've forgotten these things  
 Trailing clouds of glory  
 Remembering

C F G C F G C
