

Clouds Of Glory

Kavisha Mazzella

C F G Em Am Dm Dm G

He came one day, I don't know where from
 His eyes were laughing, his heart a song
 He took me from the city, we went outside
 Out to the desert, I lay down like a child

He touched my head, I started to cry
 There were no reasons, I couldn't say why
 Felt like there were angels flying 'round my head
 The glory of love shone down on my bed

We are angels
 We've forgotten these things
 Trailing clouds of glory
 We've broken our wings

C F G C F G

We flew over strange mysterious places
 Saw wonders of nature not made of hand
 Inside a power, a river unseen
 Flowed like the breath that turns a great wheel

Like beggars, lovers, dreamers and kings
 Our forms they change into all of these things
 Inside a power, a river unseen
 Flowed like the breath that turns a great wheel

We are angels
 We've forgotten these things
 Trailing clouds of glory
 Remembering

We are angels
 We've forgotten these things
 Trailing clouds of glory
 Remembering

F G F G

When I returned from the garden of grace
 No one knew me, or knew my face
 I went out of my house, I stood under the sky
 I know you share the same stars as I

I see a part, and you see the whole
 Like a thief in the night, my heart you stole
 Perhaps I will never see you again
 My tears of love hang like beads in the rain

Repeat chorus x3

We are angels
 We've forgotten these things
 Trailing clouds of glory
 Remembering
